MD NAFIUL ISLAM

Junior Frontend Developer | Web Developer | Software Engineering Intern
+8801905515736 | Email | LinkedIn | GitHub | Cumilla, Bangladesh

PROFESSIONAL SUMMARY

Results-driven Junior Frontend Developer in building responsive web applications using HTML, CSS, JavaScript, React, Next.js and Tailwind CSS. Built 3+ projects, including a Bangla Sudoku game with anti-cheat scoring and a full-stack hackathon app with six feature modules (Node.js, Express, MongoDB, JWT, Socket.io). Strong collaboration and organisational skills developed through BAIUST Computer Club activities and CSE fest organisation, with a solid base in C/C++ problem solving and data structures.

TECHNICAL SKILLS

Languages: HTML, CSS, JavaScript (ES6+), C, C++
Frontend: React, Next.js, Tailwind CSS, Responsive Design, Component-Based UI
Backend & APIs: Node.js, Express.js, API Development, JWT Authentication, Socket.io
Databases & Deployment: MongoDB, MongoDB Atlas, Vercel, Render
Core Concepts: Data Structures & Algorithms, Competitive Programming, Problem Solving, Modular Architecture, Teamwork

PROFESSIONAL EXPERIENCE

Member
BAIUST Computer Club, Cumilla

- Collaborated with club members to organise the CSE fest.
- Designed event banners and a farewell poster using HTML/CSS and custom embedded fonts for university events.

PROJECTS

Sudoku Game - Interactive Browser Puzzle

- Built a Bangla-language Sudoku game in JavaScript with modular architecture, anti-cheat scoring, logic-based hints, a theme system and replay functionality.
- Improved player experience with hint and replay features
- Deployed on GitHub Pages; Live | Code

Weather App - Real-Time Weather Lookup Tool

- Developed a responsive weather application integrating the OpenWeatherMap API with HTML, Tailwind CSS and JavaScript, displaying city-based search results with current temperature, humidity and wind speed.
- Deployed on GitHub Pages; Live | Code

Ramadan Dua - Responsive Web Application

- Built a mobile-friendly Islamic web app displaying Ramadan Duas with a modern UI and smooth animations using HTML, Tailwind CSS and JavaScript.
- Deployed on GitHub Pages; Live | Code

EDUCATION

B.Sc. in Computer Science and Engineering (CSE) Ongoing
Bangladesh Army International University of Science and Technology (BAIUST), [City]

Higher Secondary Education 2022 - 2024
Cumilla Bigyan College, Cumilla

CERTIFICATIONS & ACHIEVEMENTS

- Participated in a Fintech hackathon as part of team RedGreen Innovators
- Participated in a BAIUST Computer Club hackathon; preparing for the Inter University Programming Contest (IUPC)

LANGUAGES

Bangla (Fluent), English (Fluent), Hindi, Urdu
